June 30, 2017

1. Corporate Information and Corporate Transaction

PetroMaroc Corporation plc (“PetroMaroc” or “the Company”), is a publicly traded corporation on the TSX Venture Exchange (“TSX-V”) under the trading symbol PMA. The Company was engaged in the evaluation, acquisition, exploration and development of oil and gas properties in Morocco until January 2017.

On March 8, 2016, the Company entered into a binding sale and purchase agreement with Sound Energy plc (“Sound”). The agreement, upon completion, would allow Sound to acquire the Company’s Sidi Moktar licence in consideration for issuance to the Company of 21,258,008 ordinary shares of Sound and the Company retaining a 10% net profit interest in any future cash flows from the Kechoula structure within the Sidi Moktar licence, and the Company retaining a 5% net profit interest in any future cash flows from structures within the Sidi Moktar licence other than the Kechoula structure. The binding sale and purchase agreement was subject to a number of conditions precedent, including ministerial approvals in Morocco, debenture holder approval and a final approval of the TSX Venture Exchange.

In September 2016, PetroMaroc and Sound entered into an amending agreement, pursuant to which any proceeds from a sale (in whole or in part) of the 21,258,008 Sound Energy ordinary shares to be issued to PetroMaroc as consideration on completion of the acquisition will be shared between PetroMaroc and Sound Energy as follows: PetroMaroc will receive all proceeds from sale(s) up to 50 pence per consideration share and sale proceeds in excess of 50 pence per consideration share will be shared equally between PetroMaroc and Sound. The transaction closed on January 9, 2017 with the Sound shares closing at 75.75 pence as quoted on the Alternative Investment Market (“AIM”).

PetroMaroc is a Jersey limited company governed by the Companies (Jersey) Law 1991 (the “CJL”). The registered office of the Company is located at Queensway House, St Helier, Jersey, Channel Islands.

2. Basis of Presentation

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting. These condensed consolidated financial statements were authorised for issue by the Board of Directors on August 18, 2017. They do not contain all disclosures required by International Financial Reporting Standards (“IFRS”) for annual financial statements and, accordingly, should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2016.

These condensed consolidated financial statements have been prepared on the historical cost basis, except for the warrants associated with the equity financing which are measured at their estimated fair value. The condensed consolidated financial statements have been prepared using the same accounting policies and methods as the consolidated financial statements for the year ended December 31, 2015.

Going concern assumption

These consolidated financial statements have been prepared on a going concern basis, under which the Company is assumed to be able to realise its assets and discharge its liabilities in the normal course of operations, which is subjective. At June 30, 2017, the Company had a working capital surplus of \$4.2 million, with the Sound consideration shares held at June 30, 2017 being held as an investment in securities and excluding the derivative liability. At June 30, 2017, the Company has insufficient cash to fund its operations and repay current obligations (the secured debentures) for the next twelve months, based upon the Sound consideration shares held at fair value, and as a result there are material uncertainties that may cast significant doubt upon the Company’s ability to continue as a going concern.

PetroMaroc Corporation plc
Notes to Condensed Consolidated Financial Statements
In United States Dollars
(Unaudited)

June 30, 2017

2. Basis of Presentation – Continued

In assessing whether the going concern assumption was appropriate, management took into account all relevant information available about the future, which was at least, but not limited to, the twelve month period following June 30, 2017. The ability of the Company to meet its commitments and costs is dependent upon the liquidation of the Sound shares for sufficient proceeds to settle the current obligations of the Company, in conjunction with restructuring alternatives of the Company's debt and share capital. In February 2017, 25% of the Sound Shares were disposed, for net proceeds of \$4,072,050, with the funds being used to repay the outstanding accrued interest and fees owing under the Debentures as at December 31, 2016.

If the remaining Sound shares cannot be disposed at a sufficient price to satisfy the remaining obligations of the Company, the Company will be required to consider alternative financing sources including raising additional capital by issuing equity securities (which may include a rights offering or private placement), debt financing and assessing restructuring alternatives for the Company's debt and share capital. There can be no assurance, however, that these initiatives will lead to additional capital being secured, nor the timing of any transaction taking place, or at all. If the Company is unable to obtain financing in the amounts and on terms deemed acceptable, the business and future success may be adversely affected.

Functional and presentation currency

These consolidated financial statements are presented in United States ("US") Dollars, which is also the Company's and its subsidiaries' functional currency. The following are the US Dollar foreign exchange rates at the respective periods:

Currency	June 30, 2017	December 31, 2016	June 30, 2016
Average rate for the period:			
Pounds Sterling	0.7822	0.7405	0.6981
Canadian Dollar	1.3448	1.3248	1.3731
Euro	0.9093	0.9038	0.9066
Moroccan Dirhams	9.8696	9.8053	9.7242
Period end rates:			
Pounds Sterling	0.7688	0.8106	0.6958
Canadian Dollar	1.2977	1.3427	1.2966
Euro	0.8764	0.9476	0.8805
Moroccan Dirhams	9.6506	10.1566	9.6257

Use of estimates and judgments

The preparation of financial statements requires management to make estimates and use judgment regarding the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. By their nature, estimates are subject to measurement uncertainty and changes in such estimates in future periods could require a material change in the financial statements. Accordingly, actual results may differ from the estimated amounts as future confirming events occur. Significant estimates and judgments made by management in the preparation of these condensed consolidated interim financial statements are detailed in Note 2 in the annual financial statements.

PetroMaroc Corporation plc

June 30, 2017

3. Restricted Cash

The Company has a restricted cash balance, which represents the following bank deposits securing licences as follows:

	In favor of	June 30, 2017	December 31, 2016
Zag exploration licence	San Leon	\$ -	\$ 600,000
Other	Barclays	-	19
		<u>\$ -</u>	<u>\$ 600,019</u>

In March 2017, the Office National des Hydrocarbures et des Mines ("ONHYM") issued a demand notice and claimed the \$0.6 million of restricted cash (as described further in note 8 (b)).

4. Investment

As disclosed in Notes 1 and 5, PetroMaroc received 21,258,008 ordinary shares of Sound in exchange for the Sidi Moktar licence. The Sound shares trade on the Alternative Investment Market ("AIM") and are traded in Pounds Sterling. PetroMaroc will receive all proceeds from sale(s) up to 50 pence per consideration share, and sale proceeds in excess of 50 pence per consideration share will be shared equally between PetroMaroc and Sound.

During the first quarter of 2017, PetroMaroc disposed of 5,314,502 Sound shares for gross proceeds of \$4,812,122. The shares were disposed of above 50 pence, and the net proceeds due (and paid) to Sound totaled \$740,072. The net proceeds to PetroMaroc were \$4,072,050, and the gain on the disposal was \$7,124.

At June 30, 2017, the Company holds 15,943,506 Sound shares with a fair market value to PetroMaroc of \$13,168,452. As a result, the Company recorded a \$973,672 gain on the revaluation of the Sound shares.

5. Exploration and Evaluation Assets

Balance, December 31, 2015	\$ 6,800,000
Additions	83,875
Dispositions	<u>(300,000)</u>
Balance, December 31, 2016 classified as assets held for sale	6,583,875
Disposal	<u>(6,583,875)</u>
Exploration and evaluation assets	<u>\$ -</u>

As disclosed in Note 1, on March 8, 2016, the Company entered into a binding Sale and Purchase agreement with Sound Energy plc ("Sound") with an amending agreement on September 16, 2016. The agreement upon completion would allow Sound to acquire the Company's Sidi Moktar licence in consideration for issuance to the Company 21,258,008 shares of and the Company retaining a 10% net profit interest in any future cash flows from the Kechoula structure within the Sidi Moktar licence, and the Company retaining a 5% net profit interest in any future cash flows from structures within the Sidi Moktar licence other than the Kechoula structure. As a result, the Company reclassified the Sidi Moktar exploration and evaluation assets as held for sale. The transaction closed on January 9, 2017, with the Company recording a gain of \$10,722,749 on the transaction in Q1 2017.

PetroMaroc Corporation plc
Notes to Condensed Consolidated Financial Statements
In United States Dollars
(Unaudited)

June 30, 2017

6. Series 1 and 2 New Debentures

On February 15, 2017, PetroMaroc completed the restructuring of the Cdn \$11.09 principal amount of the secured debentures of the Company, which were due for repayment on December 31, 2016. Accordingly, the Cdn \$11.09 million rolled into a new class of secured redeemable, debentures, issuable in series (with an issue date of December 31, 2016), with all principal and interest due and payable in full on January 31, 2018 (the "New Debentures").

The Series 1 New Debentures bear interest at the rate of 10% per annum and are convertible, at the option of the holder, into ordinary shares of the Company at a conversion price equal to \$0.06 per share in the first 12 months of the term (January 1, 2017 to December 31, 2017) and \$0.10 per share in the last month of the term (January 1, 2018 to January 31, 2018). The Series 2 New Debentures bear interest at the rate of 15% per annum, with no right to convert into ordinary shares of the Company. The Series 1 New Debentures and the Series 2 New Debentures have an effective issue date of December 31, 2016, being the amended maturity date of the original Debentures. The Series 1 New Debentures and the Series 2 New Debentures rank pari passu with each other. The Company issued and Cdn \$4,762,400 Series 1 New Debentures and Cdn \$6,327,600 Series 2 New Debentures.

The following table summarizes the accounting for the Series 1 New Debentures:

	Liability	Derivative Financial Liability	Total
Issued on February 15, 2017	\$ 3,469,908	\$ 173,495	\$ 3,643,403
Accretion and amortization of debt issuance costs	69,962	-	69,962
Derivative loss	-	4,133,358	4,133,358
Foreign exchange loss	134,727	-	134,727
Balance at June 30, 2017	<u>\$ 3,669,597</u>	<u>\$ 4,306,853</u>	<u>\$ 7,976,450</u>

The liability portion is measured at amortized cost and will accrete up to the principal balance at maturity using the effective interest rate method. The accretion, interest paid and amortization of debt issuance costs are charged to finance expense in the consolidated statement of comprehensive income/loss. The derivative financial liability is measured at fair value through profit or loss, with changes to the fair value being recorded in the statement of operations. The Company incurred a \$4,133,358 charge (as at June 30, 2017) as a result of the re-measurement of the derivative liability.

The Company incurred finance costs of \$657,788 for the period ended June 30, 2017, of which \$587,826 relates to interest accrued on Series 1 and 2 New Debentures and \$69,962 relates to the accretion and amortization of debt issuance costs of the Series 1 New Debentures.

(i) On March 16, 2017, the Company issued 2,606,941 shares at a price of CAD \$0.08 per to settle \$130,247 of debts.

(c) Stock options

The Company has a stock option plan that provides for the issuance to its directors, officers, employees and consultants options to purchase from treasury a number of common shares not exceeding 10% of the common shares that are outstanding from time to time, which is the number of shares reserved for issuance under the plan. The options vest at various rates as determined by the Board. The maximum term of the options is five years. The options are non-transferable if not exercised. A summary of the status of the Company stock option plan as at June 30, 2017 is presented below:

Stock Options	June 30, 2017

	9,835,000		2.48 years		10,710,000

8. Commitments and Contingencies

- (a) From time to time, the Company may be involved in litigation or has claims sought against it in the normal course of business operations. Management of the Company is not currently aware of any claims or actions that would materially affect the Company's reported financial position or results from operations.

Under the terms of certain agreements and the Company's by-laws the Company indemnifies individuals who have acted at the Company's request to be a director and/or officer of the Company, to the extent permitted by law, against any and all damages, liabilities, costs, charges or expenses suffered by or incurred by the individuals as a result of their service.

(b) Zag licence

The Company committed to its percentage share of further geophysical studies and the drilling of one exploration well, subject to receiving and approving a satisfactory proposal from the operator, as per the terms of the First Extension Period. Following the joint venture not completing the minimum work commitment of the First Extension Period, a twelve month extension to the First Extension Period was agreed by the joint venture, to May 2016. During the twelve month extension the Company continued to seek a mutually agreed technical, commercial and financial proposal to reduce its financial exposure insofar as possible. Initially \$1.2 million was accrued for the Company's share of estimated penalty costs per the Exploration Licence First Extension Period, with the \$0.6 million of restricted cash lodged as a bank guarantee being available to offset the penalty. In March 2017, ONHYM issued a demand notice and claimed the \$0.6 million of restricted cash. As at June 30, 2017, the Company continues to accrue \$0.6 million penalty costs based on its working interest in the joint venture but challenges its obligation to pay such amount and has notified ONHYM that a "force majeure" has occurred pursuant to the Zag Petroleum Agreement due to financial, commercial and operational challenges on the licence over a number of years. The Company will seek to work with ONHYM and the Operator to expedite a mutually agreed resolution, however reserves the right to preserve its rights, which may include legal arbitration.

9. Financial Instruments

The Company may hold various forms of financial instruments. The nature of these instruments and the operations expose the Company to credit and foreign exchange risks. The Company manages its exposure to these risks by operating in a manner that minimizes its exposure to the extent practical.

9. Financial Instruments - continued

(a) Credit Risk

Credit risk is the risk that arises when a party to a financial instrument will be unable to discharge its obligations as they become due. The financial assets exposed to credit risk are cash and cash equivalents, restricted cash, and other current assets. Cash and cash equivalents and restricted cash is placed with major financial institutions. The maximum credit risk is approximate to the carrying value of such financial instruments. Management assesses quarterly if there should be any impairment of the financial assets of the Company. At June 30, 2017, none of the financial assets are considered to be impaired.

(b) Market Risk

Market risk is comprised of two components: currency risk and interest rate risk, discussed separately below.

i. Interest Risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. The Company is not currently exposed to interest rate risk as it borrows funds at a fixed coupon rate of 10% on the Series 1 Debentures and 15% on the Series 2 Debentures as disclosed in Note 6.

ii. Foreign Currency Exchange Risk

The Company operates on an international basis and therefore foreign exchange risk exposures arise from transactions denominated in currencies other than USD. The Company is exposed to foreign currency fluctuations as it holds cash and incurs expenditures in property and equipment in foreign currencies. The Company incurs expenditures in Pound Sterling, Euros, Moroccan Dirhams and Canadian Dollars and is exposed to fluctuations in exchange rates in these currencies. There are no exchange rate contracts in place at June 30, 2017 and December 31, 2016.

Assuming all other variables remain constant, a 1% increase or decrease in foreign exchange rates on the foreign cash balances at June 30, 2017 would have impacted earnings and cash flows of the Company during the first quarter of 2017 fiscal period by approximately \$11,500 (2016 - \$980). A 1% increase or decrease in foreign exchanges on the Series 1 and 2 Debenture would have impacted the earnings and cash flows of the Company during the first quarter of 2017 fiscal period by approximately \$36,000.

(c) Fair Value of Financial Instruments

The Company classifies the fair value of these financial instruments according to the following hierarchy based on the amount of observable inputs used to value the instrument.

- Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.
- Level 3 – Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

Cash and cash equivalents and investments in securities have been classified as level 1.

9. Financial Instruments - continued

All financial assets (except for cash and cash equivalents and restricted cash which are classified as FVPL), are classified as loans and receivables and are accounted for on an amortised cost basis. All financial liabilities are classified as other liabilities other than the warrants attributed to equity financing which are classified as FVPL. The investments in securities have been designated as available-for-sale. There have been no changes to the aforementioned classifications during the year.

(d) Liquidity Risk

Liquidity risk includes the risk that, as a result of the operational liquidity requirements:

- The Company may not have sufficient funds to settle a transaction on the due date;
 - The Company may be forced to sell financial assets at a value which is less than what they are worth; or
 - The Company may be unable to settle or recover a financial asset.
-

10. Subsequent Event

In July 2017, a creditor of the Company agreed to settle \$325,000 of debt owed, in consideration for the issuance of one million ordinary shares of the Company. The issuance of shares was approved by the TSX Venture Exchange on August 8, 2017. The shares are subject to a four-month hold period pursuant to all applicable securities laws. The Company has resolved all of its outstanding debts with its trade creditors.
